### Apacer's SD Flash Card Series Lead Market Trend

Portable Storage | Just Announced  
Mon 07 Nov 2005

Taipei, Taiwan, November 4, 2005 – Apacer introduces memory cards, a microSD card and a SD Pro 88X flash Apacer's line of SD flash cards. With these new additio consumers a complete line of SD flash cards to perfect digital storage needs. Apacer currently offers the Flash Series of SD flash cards. The Flash Series offers the SD SD Pro 88X and general purpose SD cards. The Mobile miniSD card as well as the new microSD card. Apacer's comply with the SD 1.1 card standard established by tl Association) and are compatible with most cellular pho MP3 players, PDAs and other devices with a SD card sl Apacer's SD cards support SDMI (Secure Digital Music and IP protection, and include a write-protect switch to erasure of important data.

Apacer has simplified its SD flash card product lines int professional digital cameras and other digital devices, targeting cellular phones and mobile devices. This mak consumers to select the exact SD card with the specific gain maximum functionality and enjoyment from their

Apacer will release a 128 MB microSD card and SD Pro 88X cards in November. Currently Moti have new phones that support microSD cards and as cell phones continue to shrink in size, the microSD card (15 x 11 x 1 mm) will continue to support this trend. In addition, since the micr as a SD card by using a simple adapter, its flexibility greatly increases. Apacer's SD Pro 88X c. camera use as well as general applications. The card's memory size ranges from 128 MB - 2 G frequency of 50 MHz.

Apacer's quick response to the market's needs comes from fast product development cycles ai studies. Apacer's complete line of flash cards utilizes the newest specifications and highest sto market. With SD cards becoming the mainstream storage for the digital device market, Apac perfect choice for multifunction devices requiring high speed and high capacity storage.
