

AH123

Incredible Size and Style

USB 2.0 FLASH DRIVE

HANDY STENO AH123

>> Apacer's Handy Steno AH123 impresses with its incredibly small size, great styling and large storage capacity. One of the smallest USB drives in the world, the AH123's great styling makes it a truly personal accessory that is easy to use, carry around or attach to personal belongings. What impresses people next is the AH123's ability to fit up to 1 GB of flash storage into such a small device. With its Hi-Speed USB 2.0 performance and Plug & Play ease of use, the AH123 outperforms drives many times its size, making it perfect for carrying documents, photos, presentations, videos and music files anywhere you go.

Features

- One of the world's smallest USB drives
