Apacer's new Audio Steno AU581

By NCN News Network

Searching for a MP3 player with a modern yet fashionable appearance? Apacer's new Audio Steno AU581 MP3 player makes startling impressions and delivers total listening satisfaction.

Apacer Technology Inc., a global leader in memory modules and digital storage, announced today the release of its Audio Steno AU581 MP3 which blends music and fashion into one. The AU581 features a 7-mode EQ hot key which perfectly delivers the "original sound" of Pop, Rock, Classical, Jazz, Bass, Treble, and Normal. The Direct Record button on the left side of this MP3 player captures what matters to you with on demand voice recording, and what you like with synchronous FM recording.

The AU581 completes perfection with a high-performance FM radio storing up to 20 of your favorite channels, a high-sensitivity microphone for voice recording, a high-energy built-in rechargeable Lithium-Polymer battery for hours and hours of listening pleasure, and 12 language support. The built-in flash memory capacity for the AU581 is available in 2GB and 4GB
