Apacer Intros Handy Steno AH223

Optical and Storage | Just Announced

Tue 23 Oct 2007

digg this slashdot this

Manila, Philippines -- Simply, the Best! Apacer Technology Inc announces the new Handy Steno AH223, a simple, stylish and compact USB flash drive. AH223 is the most convenient USB 2.0 flash drive tailored for anyone who needs easy-to-use digital storage. The modern ivory color brings to the AH223 a timeless trendy style; the compact size lets the AH223 easily slip into a jeans pocket, purse, or handbag.

The AH223 adopts a special pen cap design, so its cap can directly plug into the bottom of USB body while transferring data. Its plug-and-play advantage and great storage capacity can help users take documents, photos, presentation, video and music everywhere.

According to Apacer's Product Director, C.K. Chang, "in the digital age, digital data storage has become a new basic need for everyone. We all need a convenient USB flash drive to carry our digital files with. This is the reason Apacer presents the new AH223, a handy steno that offers a simple and direct solution for every computer user."

With its compact size, unique cap-lost free design, easy carrying convenience, and plug-and-play function, the AH223 brings users an easy and efficient data transferring experience. Whether you are a student, office worker or business professional, the AH223 can be a perfect fit with your basic digital need. The AH223 will be available in the capacity from 512 MB to 4 GB.
