New MP3 player from Apacer

Apacer announces Audio Steno AU240 MP3 player

Oct 05, 2007

 print this page  send to friends

Apacer Technology has announced the new Audio Steno AU240 MP3 player, a sleek and compact player. The AU240 gets an added dash of style with its leather finish. This MP3 player comes in capacities of 1 GB, 2 GB and 4 GB. The best part is that one is able to save not only music files but also data.

The player sports a blue backlight LCD display. Moreover, the high-energy Li-battery of the player provides a much longer music playback than traditional

dry batteries.

"The AU240 includes a direct USB connector, so users can transfer data without an additional USB cable. Thus, it is not only a MP3 player, but also a portable USB drive to store digital data. Furthermore, with its mini size (L 7.6 cm and W 2.6 cm) to deliver great sound, users can simply take the AU240 anywhere to enjoy music any time," said Apacer's Product Director, C.K. Chang.

The AU240 bundle includes earphones, USB cable, quick start guide, installation CD and user manual.

No word on yet on its availability and pricing.
