Apacer has announced a new stylish **MP3 player** called **Audio Steno Au240**, in its Audio Steno family.

The sleek and portable player comes in leather finish and features a blue backlight LCM display, high-energy Li-battery of AU240 provides a much longer music playback than traditional dry battery and smart function of data saving plus music.

Apacer's Product

Director, C.K. Chang, said, "The development concept of the AU240 comes from integrating streamlined appearance with convenience and perfection. Moreover, the AU240 has competitive price among MP3 players of the same memory capacity. It made the new AU240 a perfect fit with the need of young people. The AU240 includes a direct USB connector, so users can transfer data without an additional USB cable. Thus, it is not only a MP3 player, but also a portable USB drive to store digital data. Furthermore, with its mini size (L 7.6 cm and W 2.6 cm) to deliver great sound, users can simply take the AU240 anywhere to enjoy music any time."

Available in 1GB, 2GB and 4GB storage capacity, the MP3 player is a pretty compact tool to store and carry essential data files.

Thus, the new generation MP3 player is lighter, shorter and thinner and an ideal device for users who want fashion in convenient devices.
