Apacer Introduces new Audio Steno AU840

By NCN News Network

Apacer Technology Inc announced the new Audio Steno AU840, a mobile multimedia center tailored for sharing digital entertainment. The new AU840 features a 2.2-inch color TFT screen and can perfectly present/share multiple high quality

images, including video clips, e-book and digital photo. Moreover, the AU840 includes dual earphone output jacks with speakers and is equipped with two pairs of high-sensitivity lanyard earphones. So the user can create a shareable listening experience with others. With large size screen, high power speakers and two pairs of earphones, the powerful AU840 is ready to multiply your multimedia experience and spread out the digital fun!

The tailored earphones of the AU840 adopt an extra-large 15 mm neodymium magnet Mylar speaker, which can perfectly reproduce the full range of sound, including powerful super bass and the clear high-pitched sound. It can help user to solve the annoying problem of drop-frame while watching video. According to Apacer's Product Director, C.K. Chang, "the development concept of AU840 comes from sharing multimedia program between people. From now on, the new AU840 is going to help people share their digital life with their friends."

Beyond the convenience of digital program sharing, the AU840 also features a stylish urban chic look. The built-in flash memory capacity of the AU840 is available in 2 GB and 4 GB. Sharing the digital entertainment with your friend! AU840 let every user experience the multimedia program with style.
