Apacer DDR2 1066 MHz First to Pass ATI CrossFire certification

27 November, 2007 17:29:02

The first DDR2 1066 memory module to gain ATI CrossFire™ Certification ensures highest quality and performance for gaming PCs

Sydney Australia, Nov 27 2007 – After winning a series of awards for its Overclocking Series memory modules, Apacer Technology Inc., a global leader in memory modules and digital storage, is the first memory supplier in the market to pass ATI CrossFire™ certification program for its Overclocking Series DDR2 1066 MHz DDR2 unbuffered 2 GB kit (1 GB x 2) and 1 GB kit (512 MB x 2) memory modules.

ATI has ramped up the CrossFire certification program to ensure compatibility of components and strong performance of CrossFire systems for gaming PCs. CrossFire
