Not any old port

The desktop-friendly design of Apacer's 4-Port PH151 USB 2.0 Hub helps it stand out from the crowd. The Y-shape design features two USB2.0 ports on the top and two at the base of the Y, ensuring large devices don't block other ports. The hub is available in orange or black and offers both bus-powered and self-powered modes.

Apacer's 4-Port PH151 USB 2.0 Hub retails for $19.95. For more details call distributor BlueChip IT on 1300 727 474 or visit bluechipit.com.au
